

II. Data on Activities and Operations

II.2. Information on the Tasks and Activities of the Educational District Centre of Dél Buda

The Educational District Centre of Dél Buda (hereinafter: Educational District Centre) is a central budgetary institution operating as a central office designated by the Government, performing its tasks based on Act CXCV of 2011 on National Public Education and Government Decree 134/2016 (VI. 10.). The primary duty of the Educational District Centre is to ensure the fulfillment of public education responsibilities, in particular as follows:

It performs the duties of a maintainer concerning the public education institutions under its maintenance.

It proposes decisions on the establishment, reorganization, termination, modification of core tasks, and determination of the names of public education institutions under its maintenance, and participates in the preparation of such decisions.

It establishes the budget of public education institutions, as well as the fees and tuition payable, and the conditions for social discounts.

It supervises the financial management, legality, efficiency of operation, the effectiveness of professional work of the institutions under its maintenance, and the fulfillment of child and youth protection tasks, including measures taken to prevent student and child accidents.

It approves the organizational and operational regulations, pedagogical program, annual work plan, further training program, subject distribution of institutions, and evaluates the effectiveness of pedagogical work.

It proposes the appointment and dismissal of institution heads and prepares employer decisions.

It participates in the organization of national and international public education assessments, examinations, academic competitions, and the central written entrance exams for secondary school enrollment.

It prepares the development plan of institutions under its maintenance and issues their professional foundational documents.

It participates in the operation of the Klebelsberg Training Scholarship Program.

The goal of the Educational District Centre is to ensure access to quality education for children and students, maintain the uninterrupted operation of institutions, and continuously develop the public education system within the framework defined by the legislation.
